- ISO 9001:2015 and ISO 27001 Certified Processes
- CMMC Level 1 Compliant
- DCAA-Compliant Accounting System
- PMP, CISSP, Security+, and other industry-certified professionals
- Proven ability to rapidly staff and scale support nationwide
- Experience supporting civilian, defense, and commercial environments
- Mission-focused delivery with an emphasis on performance, customer satisfaction, and measurable outcomes.

Representative Past Performance

Enterprise IT Support (OSHRC)
Provided service desk, infrastructure, and end-user support services for OSHRC, improving response times and user satisfaction while maintaining high service availability.

- Supported users across multiple office locations
- Delivered responsive Tier I–III support and timely issue resolution

Cybersecurity & Privileged Access Management (HUD)

- Supported HUD cybersecurity operations, including CyberArk PAM, privileged access management, vulnerability remediation, and NIST 800-53 compliance activities.

Cloud & Network Services (CFTC)

- Modernized and migrated mission-critical CFTC applications from on-premises environments to AWS, enhancing scalability, security, and operational efficiency.

SuccessTek JV is eligible for direct 8(a) sole-source awards, SDVOSB set-asides, and competitive federal acquisitions.
